

## 2024 Specialty Drug List

### What is a specialty drug?

Specialty drugs treat complex, chronic conditions. A nurse or pharmacist will often support their use during treatment. These drugs may be injected, infused or taken by mouth. You may need to refrigerate them. They are often expensive and the list may change throughout the year.

### How to use this guide

You must fill these drugs at UVA Specialty Pharmacy (1-800-251-3627). For questions regarding the requirements and limitations of your pharmacy benefits and insurance plan, please contact your Aetna One Advocate team at 1-800-987-9072.

### How to get started with a specialty pharmacy

All specialty medications except Limited Distribution Drugs (LDD) must be filled through the UVA Specialty Pharmacy. Contact them at 1-434-297-5500. Specialty drugs are limited to a 30-day supply.

For Limited Distribution Drugs (LDD) that cannot be filled through the UVA Specialty Pharmacy, order your prescriptions through CVS Specialty Pharmacy.

### What you can expect to pay

Tier 1 drugs are specialty generics (lowest cost for specialty drugs); Tier 2 drugs are preferred specialty drugs (lower cost for specialty drugs); Tier 3 are non-preferred specialty drugs (higher cost for non-preferred specialty drugs).

Specialty medications may require prior authorization to ensure appropriate usage.

Coverage for these medications may vary with respect to your benefit design plan. We encourage you to refer to your plan documents for specialty drug coverage details. You'll also learn more about the requirements and limitations of your pharmacy benefits and insurance plan.

To check coverage and copay information for a specific drug, please visit [aetna.com](http://aetna.com) and log in to your secure member website. If you don't have access to our website, call the toll-free number on your member ID card.

This list is subject to change without notice to accommodate the introduction, removal and availability of new drugs and clinical information.

1: Generic Specialty; 2: Preferred Specialty; 3: Non-Preferred Specialty

LDD: Limited Distribution Product

\* Biosimilar

^ New to list since last update
