The Benefit Access card is controlled by the individual merchants and providers and how quickly their inventory is updated in their register systems. If the card is declined, you can submit a manual claim for reimbursement.

This list is not meant to be all-inclusive, as other expenses not specifically mentioned may also qualify. Also, expenses marked with an asterisk (\*) are "potentially eligible expenses" that require a Note of Medical Necessity from your health care provider to qualify for reimbursement. For additional information, check your Summary Plan Document or contact your plan administrator.
